

## 2. *Alveosphaera* Jordan & Young (1990)

**Derivation of name:** *alveus* L. -trough

**Diagnosis:** *Coccosphaera fusiformis* cum *coccolithis monomorphismis*. *Coccolithi alveoformes, habens duo muri paene paralleli. Latus proximale areae centralis craticula opertum.*

**Typus:** *Alveosphaera bimurata* (Okada & McIntyre 1977) comb. nov.

**Diagnosis:** Coccus spindle-shaped with monomorphic coccoliths. Coccoliths are trough-shaped with two walls arranged almost parallel to each other. Proximal side of central area covered by a grill.

**Type species:** *Alveosphaera bimurata* (Okada & McIntyre) comb. nov.

Jordan, R.W. & Young, J.R., 1990. Proposed Changes To The Classification System Of Living Coccolithophorids. *International Nannoplankton Association Newsletter*, **12(1)**: 15-18.
