DASYDIACRODIUM

Timofeev 1959

ex Defflandre & Defflandre-Rigaud

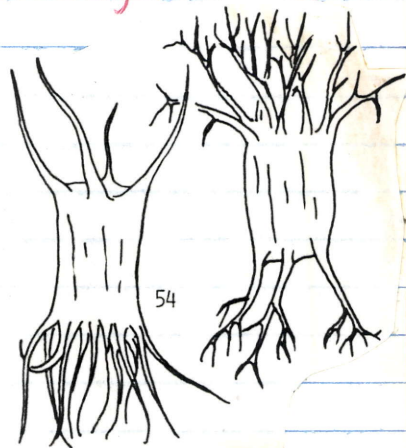

1962 p. 194-

195

DASYDIACRODIUM Timofeev 1959, emended by Defflandre et al. 1962, p. 194:
"Ellipsoidal or more or less elongate-polygonal microorganisms; smooth equatorial zone; poles dissimilar, one being ornamented with hairs, spines or horns, in number clearly superior to the other; transverse wrinkles present or absent; membrane thin in the known species, possibly with double outline". (D. eichwaldi: Timofeev 1959, p. 91, Pl. 8:8, 23:33).- text-fig. 3:54.

not validly published by Timofeev 1959 (no type species designated)

type species designated by Defflandre & Defflandre-Rigaud (1962, p. 194) thus validating the generic name
