

DIACROCANTHIDIUM

Deflandre & Foucher 1967.

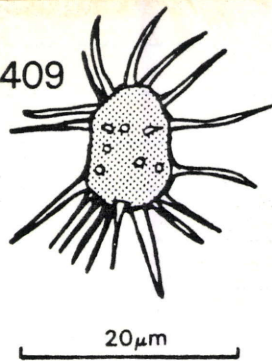

Type species: D. echinulata (Deflandre) Loeblich & Loeblich 1970

* *D. echinulata* (Deflandre) Loeblich & Loeblich 1970b
D. spirigerum De Coninck 1969

LATE CRETACEOUS - EARLY EOCENE

DIACROCANTHIDIUM

409

DIACROCANTHIDIUM Deflandre & Foucher, 1967, p.3 *ex* Loeblich & Loeblich, 1970, p.200

Type species: *D. echinulatum* (Deflandre, 1937b, p.55, pl.11, fig.9)
Loeblich & Loeblich, 1970, p.200

Paratabulation: Unknown

Archeopyle: Unknown

Number of species: 2

Stratigraphic range: Late Cretaceous - Early Eocene

Remarks: According to Stover & Evitt (1978, p.229) the dinoflagellate affinity of *Diacrocantidium* is uncertain

DIACROCANTHIDIUM

Deflandre - Foucher 1967
ex Loeblich Jr & Loeblich III
1970 p. 200

Type species: *D. echinulatum* (Deflandre) Loeblich Jr. & Loeblich III, p. 200

The genus was not validly published by Deflandre & Foucher 1967 since these authors did not validly transfer the type species to it.

* *D. echinulatum* D. & F. 1967
