

**Ellipsodiscoaster** BOUDREAUX & HAY, 1969

**Description:**

Diagnosis: Discoasteroid testae ellipsis formis cum petaloid membris ex centro radiantibus, cum flecticantibus brachiis et media ellipsis forma cum elementis simile numero, diversos heliolithid crystallographicam orientationem habentibus. (Elliptical discoaster-like forms composed of numerous petaloid rays radiating from the central area with reinforcing flanges and a central elevated elliptical area composed of an equal number of elements having heliolithid crystallographic orientation).

**Type species:**

*Ellipsodiscoaster lidzi* BOUDREAUX & HAY, 1969.

**Author:**

Boudreaux J. R. and Hay W. W., 1969, p. 287.
